The schedule

Which includes details of the risk address, operative sections and clauses, the sums insured and the period of insurance.

Under the relevant European and Irish Legal provisions, the parties to this contract of insurance, we, Zurich Insurance plc and you, the Insured, are free to choose the law applicable to the contract. We propose that this contract is governed by Irish Law.

If you wish to make alterations to your Policy, they must be notified to us immediately for cover to operate. Such alterations may include the purchase of a piece of jewellery, home improvements such as an extension or the addition of a conservatory to your home.

Underinsurance

Protecting your home and contents

The purchase of your home represents probably the largest financial investment you will make in your lifetime. It is, therefore, vitally important that you protect your investment by insuring it for the correct value.

Each year you should review the amount for which you have insured your buildings and contents. In addition, if home improvements have been carried out, such as the building of an extension or the conversion of the attic, or if you have purchased additional contents, the sums insured should be increased to reflect this.

It is important that the base value of your buildings and contents are regularly reviewed.

Home protection tips

Storm

To minimise damage from storms, we suggest the following:

- Mineral felt roofs have a limited life span and are subject to wear and tear and deterioration over time. Check the roof covering at regular intervals and replace the felt where there are signs of deterioration. Remember, your Policy does not cover the maintenance costs involved in repairing or replacing the roof. The Policy specifically excludes damage caused by wear and tear and gradual deterioration.
- Ensure your tiles and guttering are secure.
- Check that the gutters and drains are not blocked.
- If a storm is forecast, make sure all gates are bolted. Put any garden furniture, lawnmowers or plant pots in a garden shed and lock it.

Fire prevention

Every year many people are killed or injured and homes are destroyed as a result of domestic fires. You can reduce the risk of fire by taking the following precautions:

- Do not overload an electrical point. Unplug all appliances when not in use.
- Repair faulty wiring, frayed leads and loose plugs.
- All fires and heaters should have a secure fireguard. Never leave the room without having a guard in front of the fire.
- Chimneys should be swept at least once a year.
- Avoid careless smoking, especially in bedrooms.
- Matches should be kept well away from children.
- Close all internal doors when going to bed.
- Keep heaters away from furniture, curtains and bedclothes.
- Never move or refuel an oil or gas heater while it is lighting.
- Keep all electrical flexes off cooker rings and hobs.
- Be especially careful with chip pans, they should never be left unattended on a lighted cooker.
- You should install at least two smoke detectors in your house. Smoke detectors should be tested regularly to ensure they are working properly. Change the batteries at least twice a year.

Water damage

There are various weather hazards which you cannot avoid, but against which you can protect your home.

- Lag pipes and water tanks wherever possible.
- Leave the underside of tanks free to ensure rising warmth can reach them.
- Replace washers on dripping taps.

Burglary prevention

Unfortunately, theft has become part of everyday life in many areas. Most thieves are opportunists who commit crimes when they spot an easily entered home. Such opportunities can be removed by fitting and using good quality locks on doors and windows and by installing an approved alarm system.

- All external doors should be fitted with five-lever mortise deadlocks and the keys should be removed from the lock.
- All patio doors should be fitted with key-operated patio door locks. The keys should be removable. A stop should be fitted in the top of the door frame to prevent the doors from being lifted out of their frame.
- All ground floor windows and other accessible windows, fanlights and rooflights should be fitted with key-operated security locks or stops with removable keys or key-operated security bolts with removable keys.

Before going on holidays:

- If you have an automatic light switch installed, set it to operate at the times you normally switch the lights on.
- Cancel all deliveries, e.g. milk, newspapers etc.
- Ask a neighbour to pop in from time to time to check on the house and to remove post from the letterbox/porch.
- Inform your local Garda station that you will be away.
- Check that all windows and doors are securely locked.
- Set your intruder alarm, smoke detectors and other alarm systems – check that the batteries in all alarms are working.

Settling claims

We will pay the full cost of repair or reinstatement as new of the damaged part of the **buildings** provided that the work is done without delay or at our option **we** will arrange for the work to be carried out. However, **we** will deduct an amount for wear and tear if:

- at the time of the loss or damage the sum insured is less than the full cost of rebuilding the **buildings** as new,
- the **buildings** are in a poor state of repair or decoration.

We will not pay any cost relating to the replacement of, or work on, any undamaged or remaining items which form part of a set, suite, group or collection of articles of a similar nature, colour, pattern or design when the loss or damage is restricted to a clearly identifiable area or to a specific part and replacements cannot be matched.

If repair or reinstatement is not carried out **we** will pay the reduction in market value resulting from the loss or damage but only up to what it would have cost to rebuild or repair if such work had been carried out without delay.

The most **we** will pay under paragraphs 1 to 14, 18 and 'Additional costs' below is the sum insured by this section.

We will automatically reinstate the sum insured from the date of payment of any claim unless **we** have given **you** written notice to the contrary before payment.

Index-linking

We will automatically adjust the sum insured in line with changes in the Housebuilding Cost Index issued by the Department of the Environment.

This adjustment will:

- be subject to a minimum increase of 5%
- continue after any insured loss or damage if the repairs or reinstatement are carried out without delay.

We will not charge extra premium during the period of insurance but at the end of the period **we** will calculate the renewal premium on the revised sum insured.

More than one home

When more than one **home** is insured the terms and conditions of the policy shall apply as if each is separately insured.

Selling your home

If **you** are selling your **home we** will insure the buyer up to the date the contract is completed unless he/she has arranged his/her own insurance. The buyer must keep to the terms and conditions of the policy.
